

E-Z Pool Water Care Sheet

Gallons of Water: _____

Pekin --346-1420
Bloomington -- 663-7668

Normal Startup for a Clear Pool

A. Start Up

1. Have your water tested for balance by San Juan Pools.
2. Add _____ bag(s) of **Booster/Sun Burn Force (pre-dissolve & pour around pool)**
Dose = 1 bag per 20,000 gallons
3. Treat pool with **REVIVE** (Follow Bottle for Directions)(May not be needed for new pools)
4. Balance the Pool Water (**Do this step now and E-Z Pool will maintain it for you**)

Calcium Hardness	350 ppm or higher
Total Alkalinity	80 – 120 ppm (your TA may be higher depending on your location)
pH	7.2 – 7.6
Phosphates	less than 150 ppb
5. Add _____ scoop(s) of **E-Z Pool**
Dose = (1) scoop per 4,000 gallons
6. Add _____ 3” **Sun Large Chlorine Tablet** to the Skimmer
Dose = (1) 3” tab for every 15,000 gallons

Have your water tested to confirm the following:

Calcium Hardness	350 ppm or higher
Total Alkalinity	80 – 120 ppm (TA may be higher depending on your location)
pH	7.2 – 7.6
Phosphates	150 ppb or lower

B. Weekly Treatment

1. Test your water with a test strip (Make Sure Everything Looks Good)

Free Chlorine	0.0 ppm (E-Z Pool does not show up as Free Chlorine)
pH	7.2 – 7.6
Total Alkalinity	80 – 120 (TA may be higher depending on your location)
Calcium Hardness	350 or higher
2. Add _____ 3” **Sun Large Chlorine Tablet** to Skimmer
Dose = (1) 3” tab for every 15,000 gallons
3. Add _____ scoop(s) of **E-Z Pool**
Dose = (1) scoop per 4,000 gallons
4. Add _____ cap(s) of **Pool Perfect + Phos Free** to the Skimmer
Dose = (1) cap per 8,000 gallons

C. Have Your Water Tested Monthly By San Juan Pools
