

SilkBalance Instructions

Before you use SilkBalance:

AFTER FILLING YOUR HOT TUB YOU MUST MAKE SURE YOUR PH IS BALANCED. ONCE YOU HAVE IT BALANCED YOU CAN ADD SILKBALANCE. IT WILL KEEP IT BALANCED AND YOU DO NOT NEED TO CHECK IT WEEKLY.

Once a Week:

1. **Shake SilkBalance REALLY REALLY** well each time before use. **Add SilkBalance** (see chart for amount) into filter compartment. **DO NOT RUN JETS.**
2. **Wait at least 1 hour.** You can wait up to 24 hrs before step 3.
3. Add **Chlorine** (see chart for amount) into the body of the hot tub and run all jets for 10 minutes with the cover open.

250 - 550 Gallons*

SilkBalance = 4 oz
Chlorine = 2 Tbsp
Activate = 2 oz

under 250 Gallons*

SilkBalance = 2 oz
Chlorine = 1 Tbsp
Activate = 1 oz

gallons in my hot tub: _____

Every Other Use:

1. Add **Activate** (see chart for amount) **every other use** either before you get in OR when you get out.

Once a Month:

1. **Clean Filters: Paper Filters:** rinse thoroughly. **Ceramic Filters:** run them through the dishwasher - no soap! Turn OFF the Heat Dry Cycle.
2. **Rotate Filters** if there are more than 1.

Once Every 4 Months:

1. Drain & refill your hot tub with new water.
2. Replace **Silver Ion Cartridge** with a new one.
3. Soak filters in **Filter Cleanse** to remove build up.
4. **Rinse filters every week** for 3 weeks after every refill.
5. Clean & condition the cover with **Cover Shield.**

That's How Simple It Is! • No Water Testing • No Other Chemicals!

Procedure to Convert to SilkBalance

4 Simple Steps

Before you use SilkBalance:

AFTER FILLING YOUR HOT TUB YOU MUST MAKE SURE YOUR PH IS BALANCED. ONCE YOU HAVE IT BALANCED YOU CAN ADD SILKBALANCE. IT WILL KEEP IT BALANCED AND YOU DO NOT NEED TO CHECK IT WEEKLY.

1. Remove filters, soak with **Filter Cleanse**, rinse.
2. Use **Clean Start** (purging agent) in hot tub. Follow instructions on the Clean Start package. **NOTE:** Please have something to stir the clean start with right away when you pour into bucket. If you do NOT stir it IMMEDIATELY it can start to harden. PLEASE STIR IMMEDIATELY AND THEN POUR INTO TUB WITH JETS RUNNING ON HIGH.
3. Return filters to hot tub. Refill hot tub. (Remember to put the hose into the filter compartment when filling hot tub. Use an inline hose filter when possible.) Insert new **Silver Ion Cartridge** into filter area.
4. Refer to **SilkBalance Instructions** on opposite side. Begin the **Once a Week** procedure.

Important Instruction for the first 3 weeks using SilkBalance. Each Week:

1. Remove filters and rinse thoroughly.
2. Return filters to hot tub. (Filter discoloration is normal.)
3. After 3 weeks, return to regular filter maintenance once a month.

*If you are not sure of the # of gallons in your hot tub, it is listed with each model on the website at ihtspas.com or call 303-296-7727.
